

CREATIVE SERVICE & DIGITAL PORTFOLIO

Rami Almohamad

Branch management | Customized printing | Inventory | Customer service |
Hospitality | Web development

**I combine practical creativity, responsibility,
customer service and digital skills.**

This portfolio presents real examples of my printing
work, branch operations, Excel inventory
management, customer feedback, hospitality
experience and web-development background.

Prepared for Lumea lui Pinocchio Team

July 2026

ABOUT ME

A practical, creative and people-focused profile

Rami Almohamad

Computer Science Student
Creative Printing, Service & Web

I am a Computer Science student with practical experience in customized printing, branch management, customer service, hospitality and freelance web development.

In the printing business, I worked directly with customers, prepared and positioned artwork, supported production, checked finished products, organized displays, monitored stock and prepared Excel inventory records. In hospitality, I learned professional service, teamwork, patience and respectful communication.

These experiences developed my responsibility, flexibility, attention to detail and confidence when working with different people.

CORE STRENGTHS

+

PRACTICAL CREATIVITY

I can transform an idea into a clear design, a finished product or a structured activity.

+

CUSTOMER COMMUNICATION

I listen carefully, explain options, manage expectations and stay respectful under pressure.

+

RESPONSIBILITY & ORGANIZATION

I supported branch operations, stock checks, Excel inventory, deadlines and quality control.

+

SERVICE & DIGITAL SKILLS

I combine hospitality experience with web development, UI/UX thinking and digital communication.

EXPERIENCE SNAPSHOT

- **Customized Printing Branch:** branch operations, production preparation, customer orders, Excel inventory, quality checking and display.
- **Hospitality / Waiter:** guest service, teamwork, professional presentation, patience and working efficiently during busy periods.
- **Freelance Web Developer:** websites, UI/UX, front-end development, WordPress and digital problem solving.

FROM IDEA TO FINISHED PRODUCT

My practical workflow: understand, prepare, measure, produce, check

1

UNDERSTAND

Listen to the customer request and clarify the product, size, text, image and deadline.

2

PREPARE

Select or prepare the artwork, adjust dimensions and set the correct production parameters.

3

MEASURE

Position the design accurately so the final result is balanced and professional.

4

PRODUCE

Print, cut or transfer the design according to the material and product type.

5

CHECK

Inspect alignment, quality and finish before presenting or delivering the product.

MEASURING THE DESIGN

Checking the exact width and placement before production.

PREPARING THE GARMENT

Aligning the T-shirt and measuring the correct print position.

SETTING THE FILE

Adjusting dimensions and cutting or production settings in specialized software.

WHAT THIS PROCESS DEMONSTRATES

- **Accuracy:** careful measurement and visual balance before production.
- **Technical confidence:** using software, equipment and different printing methods.
- **Quality control:** checking alignment, finish and customer requirements.
- **Problem solving:** adapting a design to different sizes, fabrics and product surfaces.
- **Patience:** correcting steps when necessary to achieve a good result.

CUSTOM CLOTHING PRODUCTION

T-shirts and hoodies: preparation, positioning, printing and finishing

FULL-COLOR T-SHIRT

A completed customized T-shirt showing centered placement, color balance and finished presentation.

SMALL CHEST LOGO

Experience with subtle, precise placement on a dark hoodie. Small designs require careful alignment because even a small error is visible.

DETAILED GRAPHIC PRINT

An example of working with detailed typography and a complex graphic composition on dark fabric.

SKILLS SHOWN

- Choosing an appropriate print size for different clothing styles.
- Centering and positioning designs consistently.
- Working with both small logos and large detailed graphics.
- Checking contrast, readability, color and finishing quality.
- Preparing products for customer presentation and delivery.

Portfolio note: Some artwork and brand imagery shown in these examples was customer-selected. It is included only to demonstrate my printing, positioning and production experience, not to claim ownership of the original artwork.

PERSONALIZED PRODUCTS

Working across different materials, shapes and customer requests

CUSTOM CAP

Text and icon placement on a curved fabric surface.

FULL-WRAP MUG

Colorful mug printing with image continuity around the surface.

PHOTO MUG

Personalized photographic printing and image presentation.

PHONE CASE

Bright, detailed printing on a hard accessory surface.

CUSTOMIZED BACKPACK

Printing on bags and accessories requires attention to seams, zippers,

Versatility:

I worked with clothing, mugs, caps, bags, phone cases and photo products. This helped me learn how the same visual idea must be adapted to different materials and dimensions.

BRANCH MANAGEMENT & SERVICE

Responsibility beyond printing: organization, stock, people and quality

MY RESPONSIBILITIES

- Welcome customers and understand personalized requests.
- Explain product options, sizes, materials and expected results.
- Prepare, measure and coordinate custom printing orders.
- Check finished products before delivery.
- Organize merchandise and maintain a clear product display.
- Monitor stock and identify what the branch needed.
- Prepare inventory records and orders using Excel.
- Handle multiple tasks while respecting deadlines.

WHAT I LEARNED

- **Leadership:** taking ownership of daily needs and decisions.
- **Communication:** helping different customers clearly and respectfully.
- **Patience:** staying calm when a design or order needed correction.
- **Time management:** balancing customers, production and stock tasks.
- **Problem solving:** finding practical solutions within available materials.
- **Quality mindset:** caring about the final result and customer satisfaction.

This experience is useful in volunteering because activities with children also require preparation, communication, flexibility, teamwork and responsibility.

Planning stock, identifying needs and supporting reliable daily operations

EXCEL STOCK RECORD - REAL WORK EXAMPLE

- Hoodies and T-shirts by size and color.
- Caps, bags, aprons and accessories.
- Mugs, phone covers and packaging materials.
- Baby clothing and other printable products.
- Items that needed restocking.

- **Excel organization:** clear categories, sizes and quantities.
- **Accuracy:** checking physical stock before recording numbers.
- **Planning:** identifying shortages before customer demand caused delays.
- **Responsibility:** supporting the branch with practical restocking information.
- **Operational thinking:** connecting inventory with customer orders and production needs.

CUSTOMER FEEDBACK & PROFESSIONAL COMMUNICATION

Selected feedback from real work conversations - private details omitted

MANAGER / SUPERVISOR FEEDBACK

"Keep it up Rami" and "Great job" show recognition of my effort and responsibility.

POSITIVE PRODUCT RESPONSE

The customer reacted positively after receiving a personalized printed product.

You deserve more!

Customer appreciation

LOVE IT

Customer approval of a personalized design

Thank you sooooo much. It was a pleasure meeting you.

Customer-service feedback

Ooooh, very nice.

Positive reaction to the finished product

HOSPITALITY & WAITER EXPERIENCE

Professional service, teamwork, communication and attention to guests

PROFESSIONAL PRESENTATION

Working in uniform taught me to represent the workplace professionally and remain respectful with guests.

SERVING AND HANDLING ORDERS

Hospitality requires safe handling, careful presentation, speed and communication with the team.

WHAT HOSPITALITY TAUGHT ME

- Respectful communication with different people.
- Patience and calm behavior during busy moments.
- Teamwork and coordination with colleagues.
- Cleanliness, presentation and attention to detail.
- Listening to requests and responding professionally.

WHY THIS EXPERIENCE MATTERS FOR VOLUNTEERING

Hospitality strengthened my people skills. It taught me to be helpful, observe what others need, communicate politely, support a team and remain responsible even when the environment is busy. These abilities are useful when working with children, families, volunteers and staff.

SUPPORTING CHILDREN & YOUNG PEOPLE

Using creativity as a tool for confidence, inclusion and expression

My goal is not only to make products. I want to help children transform their ideas into something visible, personal and meaningful.

+

CREATIVE DESIGN WORKSHOPS

Children draw symbols, names or messages, then learn how an idea becomes a simple digital or printed design.

+

PERSONAL IDENTITY PROJECTS

Create name cards, group posters, badges, T-shirts or small keepsakes depending on available resources.

+

DIGITAL STORYTELLING

Support photo stories, posters, activity reports and simple visuals that celebrate children's participation.

+

CONFIDENCE THROUGH MAKING

Invite children to present their creations, explain their meaning and feel proud of completing a project.

+

EVENT & CAMPAIGN MATERIALS

Help prepare decorations, certificates, invitations, awareness posters and visual materials for community events.

+

INCLUSIVE TEAMWORK

Adapt tasks so children with different abilities can participate safely, share roles and help one another.

MY APPROACH

I would follow the team's guidance, use age-appropriate and safe materials, respect consent and privacy, avoid discrimination, and adapt every activity to the children's needs, available equipment and project budget.

WEB DEVELOPMENT & DIGITAL COMMUNICATION

Combining practical creativity, technology and organized communication

I worked as a freelance web developer and continue studying Computer Science at University of the People.

My skills include HTML, CSS, JavaScript, Python, Django, WordPress, React, GitHub, Bootstrap, Tailwind, UI/UX design and digital content creation. These skills can support an organization with website content, visual communication, documentation, campaigns and simple digital tools.

DIGITAL CONTRIBUTIONS

- Create or update simple website pages and activity information.
- Prepare posters, online visuals and campaign materials.
- Organize project photos and create digital activity stories.
- Support social-media content and clear online communication.
- Create simple forms, documents or tracking tools when useful.
- Present activities while respecting privacy and consent.

WHY I WANT TO CONTRIBUTE

I want to use my skills in a human and practical way. I can support children with patience, creativity, respect and responsibility while learning from the team and the local community.

My purpose is not only to show what I already know. I want to help children express themselves, build confidence, discover their abilities and feel included.

CREATE

Creative workshops and visual activities

ORGANIZE

Materials, inventory, preparation and deadlines

COMMUNICATE

Respectfully with children, families and the team

SUPPORT

Hospitality, digital communication and project materials

Thank you for considering my application.
